I02-04-026 - Order Instituting Investigation into the ratemaking implications for Pacific Gas and Electric Company (PG&E) pursuant to the Commission's Alternative Plan of Reorganization under Chapter 11 of the Bankruptcy Code for PG&E, in the United States Bankruptcy Court, Northern District of California, San Francisco Division, In re Pacific Gas and Electric Company, Case No. 01-30923 DM.

This decision rejects the Proposed Settlement Agreement (PSA) offered by PG&E, PG&E Corporation, and the Commission staff. The reasons for rejection include: 1) it purports to bind the Commission for nine years, 2) it unnecessarily cedes Commission jurisdiction to the Bankruptcy Court, 3) it guarantees PG&E an investment grade credit rating for nine years, and 4) it guarantees PG&E's dividends for nine years. This decision approves a Modified Settlement Agreement which deletes the rejected conditions and approves all the other financing arrangements of the PSA, including a monetary settlement of \$7.2 billion which includes a regulatory asset of \$2.21 billion.

53b (Rev.) ALTERNATE TO ITEM 2983

[2996]

This revised alternate modifies the Proposed Settlement Agreement of the Commission staff and Pacific Gas and Electric Company (PG&E), and approves the modified settlement. In accordance with the Joint Reply Comments of PG&E and The Utility Reform Network (TURN), this revised alternate incorporates the proposal put forward by TURN and PG&E in their joint comments. Among other things, that proposal: 1) deletes the provision of the PSA that calls for PG&E to reimburse PG&E Corporation for its professional fees and expenses incurred in connection with the Chapter 11 proceeding and 2) includes the proposal to allow use of a securitized financing backed by a dedicated rate component (DRC), by providing for a DRC to be used to refinance the Regulatory Asset, once PG&E emerges from Chapter 11, and assuming that authorizing legislation satisfactory to the Commission, TURN, and PG&E is passed and signed into law. The revised alternate, as did the original alternate, also, among other things, deletes Paragraph 6 of the PSA (restricting Commission discretion on future dividend practices of PG&E) and adds funding for environmental enhancements and clean energy technology. The revised alternate also includes certain clarifications requested by other governmental agencies in their comments.

53c ALTERNATE TO ITEM 2983

[3058]

This alternate reduces the amortization period for the regulatory asset from nine years to five years, clarifies the settlement regarding shareholder payment of PG&E Corp. litigation costs and CPUC oversight of the Land Conservation Commitment, requires PG&E to refund to ratepayers \$96 million from disallowed shareholder owned gas hedging contract costs, sets allowable 2003 headroom revenues allowed for bankruptcy purposes at \$775 million, and clarifies releases requested by the Attorney General.

(Comr Brown)

53d ALTERNATE TO ITEM 2983

[3060]

This alternate rejects the proposed settlement agreement because it unreasonably burdens PG&E's ratepayers with high rates for the next nine years, and contains numerous provisions that are illegal and not in the public interest. This alternate approves a modified settlement that would follow an "Edison-style" model - maintaining rates at their current level until PG&E's undercollection is reduced to zero. The Modified Settlement Agreement (MSA) approved in this alternate avoids all the legal infirmities of the PSA and provides a significant and lasting rate decrease of at least 1.6 cents per Kwh starting in 2005. The MSA in this alternate provides a simple means for PG&E to pay its undercollection, become creditworthy, and emerge from bankruptcy in 2005.

53e ALTERNATE TO ITEM 2983

[3061]

This alternate modifies the Proposed Settlement Agreement of the Commission staff and Pacific Gas & Electric Company and approves the modified settlement. The alternate, among other things, (1) adopts a regulatory asset of \$1.2 billion amortized over 4 years with a straight-line amortization schedule, (2) deletes Paragraph 6 restricting Commission discretion on future dividend practices of PG&E, (3) adds funding for environmental enhancements and clean energy technology and (4) adds a provision to Paragraph 3 (Ratemaking Matters) that if the PG&E Corp. in any matter prevents the utility from achieving target credit ratios, the Commission may take necessary steps to address the drag on credit ratings.

Although the Commission approves Edison's application for a Federal Energy Regulatory Commission jurisdictional PPA, with modifications, the Commission would prefer it if Edison sought authorization to purchase and own Mountainview as a utility owned generation project. ALTERNATE TO ITEM 2992

This alternate decision grants Edison a certificate of public convenience and necessity (CPCN), authorizing it to move forward with Mountainview as a utility-owned generation project, while denying Edison's proposed PPA with MVL. The decision finds that the requirements for a CPCN are met by this project - primarily determination of need and environmental review under the California Environmental Quality Act (CEQA), which was performed by the CEC in its siting review of the power plant. By granting this CPCN, the Commission authorizes Edison to exercise its option to purchase MVL in its entirety before the expiration of the option date, allows Edison to avoid seeking expedited review from FERC for the PPA and eliminates applicability of the Commission's affiliate transaction rules.

This decision provides the opportunity to incorporate various critical elements of the utilities' long-term plans, such as Renewable Portfolio Standard benchmarks, Community Aggregation rules and energy efficiency program administration, that are essential to meet California's electricity needs in the future and may be neglected without a complete long-term procurement framework in place.

This proposed alternate decision of the assigned Commissioner finds that Pacific Bell properly reported its pension and depreciation expenses during 1997-1999. The alternate finds that Pacific Bell properly wrote off certain PBOP's regulatory assets as expenses in 1998 when the Commission eliminated a rate surcharge that supported this regulatory asset. On other issues, the alternate finds that Pacific misreported expenses during this period concerning PBOPs sub-accounts and concerning income taxes. The alternate decision also finds that Pacific improperly withdrew funds from one of its PBOP trusts in 1999. Compared to the Administrative Law Judge's proposed decision, the alternate decision finds a lower level of misreported costs and orders a smaller refund. [2513]

R00-02-004 - Order Instituting Rulemaking on the Commission's own motion to establish consumer rights and consumer protection rules applicable to all telecommunications utilities.

The Commission adopts General Order No. ###, Rules Governing Telecommunications Consumer Protection, applicable to all Commission-regulated telecommunications utilities. G.O. ### sets forth: in Part 1, a telecommunications consumers' Bill of Rights; in Part 2, a set of Consumer Protection Rules all carriers must follow to protect those rights; in Part 3, Rules Governing Billing for Non-communications-Related Charges; and in Part 4, Rules Governing Slamming Complaints. The proceeding remains open to consider changes to the current limitation of liability provisions, rules protecting non-English speaking consumers, and a telecommunications consumer education program. R01-09-001 - Order Instituting Rulemaking on the Commission's own motion to assess and revise the new regulatory framework for Pacific Bell (Pacific) and Verizon California Incorporated.

I01-09-002 - Related matters. This proposed decision addresses Phase 2B audit issues. The proposed decision sustains most of the findings of an audit of Pacific's intrastate financial results for the period 1997-1999 that were considered during Phase 2B. This decision should be read in conjunction with the findings reached by the Commission in Phase 2A of this proceeding, which concludes that as a result of both decisions, Pacific owes a refund to its ratepayers in the amount of \$661 million, including interest through July 2003.

ALTERNATE TO ITEM 2636

I01-09-002 - Related matters. This alternate proposed decision resolves Phase 2B audit issues. The alternate proposed decision sustains the analysis in the audit conducted by Overland on 51 of 68 issues, and reverses its findings on 17. The alternate proposed decision accepts Pacific's claim of lawyer-client confidentiality concerning certain information, but prohibits the booking of contingent liability accruals that rely on this information. The alternate resolves ambiguities in the Commission's process for resolving discovery disputes. Consistent with D01-06-077, the alternate orders Pacific to pay interest on the amounts due to customers at the 90-day commercial paper rate.

Closed Session

This notice is furnished under Government Code Sections 11125 and 11126.3. The Commission will meet in Closed Session following the Public Session of its regularly scheduled meeting. In the Closed Session, the Commission may consider personnel matters as provided under Government Code Section 11126(a), institution of proceedings or disciplinary actions against any person or entity under the jurisdiction of the Commission as provided under Government Code Sections 11126(d)(2) and 11126(e)(2)(C)(i), and pending litigation as provided under Government Code Section 11126(e). Additional items may be added to the closed session agenda pursuant to Gov. Code Section 11126.3(d). If in Closed Session the Commission votes to appoint, employ, or dismiss a public employee, the Commission will thereafter reconvene in Open Session to make the disclosures required by Government Code Sections 11125.2 and 11126.3(f).

Disposition of Applications for Rehearing of D3-07-037 filed by Women’s Energy Matters (WEM) and Residential Energy Service Companies’ United Effort; WEM has also filed a request for oral argument and motion for stay. R01-08-028 examines the Commission’s future energy efficiency policies, administration and programs. In the fall of 2002, the California Legislature passed AB 117, authorizing any city, county or city and county, to aggregate the electrical loads of local customers. Such entities are designated: “Community Choice Aggregators” (CCA). AB 117 also added sections to the Public Utilities Code directing the Commission to establish policies and procedures by which any party, including a CCA, may apply to administer cost-effective energy efficiency and conservation programs. D03-07-034 is an interim decision. D03-07-034 is limited to issues regarding energy efficiency program fund disbursements. Among other things, D03-07-034 adopted skeletal rules for implementing provisions of AB 117 for energy efficiency program fund disbursements.

[3049]

Disposition of Application for Rehearing of D03-09-023 filed by the City of Richmond. D03-09-023 found that the installation of an upgraded warning and safety system at the at-grade crossing at Richmond Avenue in the City of Richmond would upgrade the crossing to acceptable safety standards set by the Commission and other state and federal agencies. The Commission ordered the Burlington Northern Santa Fe Railroad Company to undertake the work effective immediately, despite the protests of the City of Richmond, which opposed the replacement of the existing wigwag warning devices with the upgraded system.
